

Guest Driver Access will be Limited

Until further notice, guest drivers will be limited to those having prior experience driving in member sessions on a hot track at the Autobahn Country Club or extensive experience driving on a hot track. Those who have no experience at Autobahn Country Club will need to be approved by Tony Kester prior to arrival. This change in policy does not pertain to participation in lunchtime touring.

Guest drivers must have extensive knowledge of flags, Autobahn passing rules, track etiquette, and basic lapping skills. This information is available for review on the member website.

For the foreseeable future, novice and intermediate drivers requiring training to receive a green band will not be allowed to drive on track during member sessions.

This temporary change in policy is necessary to ensure the health and safety of Autobahn members, their guests and employees. At such time as the health emergency abates, and requirements for masks and social distancing are lifted, these restrictions will be eased.

Our main focus during these trying times is to accommodate members who wish to enjoy their Club in a safe manner in accordance with Illinois and CDC guidelines.

If you will be hosting a guest driver contact:
